Dynamic Senior Software Engineer with 4.5 years of expertise in Angular and frontend development. Proven track record of driving impactful projects, creating scalable, user-centric solutions, and contributing to innovative initiatives. Adept at translating business requirements into efficient and maintainable code. Committed to staying at the forefront of technology trends and eager to bring technical excellence to a forward-thinking team.

WORK EXPERIENCE

Senior Software Engineer
Zeotap

12/2021 - Present　　　　　　　　　　　*Bangalore, India*

Helps in business's need to deliver data-driven customer experiences and hand-in-hand with the protection of their user's interests.

Achievements/Tasks
- Developed a Unity demo application enabling Sales executives to showcase products to prospective clients, ensuring the utmost data privacy during presentations.
- Spearheaded the creation of a Customer 360 platform, providing users with a comprehensive view of customers through identities, traits, events, and journeys

Software Engineer
Tredence Inc

07/2019 - 12/2021　　　　　　　　　　*Bangalore, India*

Tredence is a global data science solutions provider focused on solving the gap between insight creation and value realisation (last mile) problems in AI.

Achievements/Tasks
- Engineered an in-house Pricing Tool to automate incoming project revenue calculations, resulting in a 60% % reduction in manual effort and time. This streamlined financial project approvals significantly
- Innovated a Valuation & Benchmarking Tool for financial clients, enhancing efficiency by 50% and expanding user reach by 20%.
- Designed an in-house Sentiment Analysis Tool for the HR team, providing a flexible platform for obtaining anonymous employee feedback. This initiative skyrocketed response rates from 30- 40% to nearly 100%
- Orchestrated the end-to-end development life cycle of over 8 web applications within 2 years, including planning, development, testing, deployment, and ongoing maintenance.
